Subject: Microsoft Litigation

I believe that the proposed Microsoft settlement offers a reasonable compromise that will enhance the ability of seniors and all Americans to access the internet and use innovative software products to make their computer experience easier and more enjoyable.

I strongly urge the Justice Department to adopt this settlement and end the prolonged litigation and high costs to the government of this procedure.

I am offering these comments under current law (known as the Tunney Act) which allows public comment on the proposed settlement up until January 28th.

Thank you for your consideration.
